

15U-17U SBA LIONS PROGRAM GUIDE

MISSION

The SBA Lions are a travel baseball program designed to develop players both on and off the field. Our goal is to develop better baseball players, and more importantly, better people, through the values of discipline, work ethic, and accountability. While instilling these values, our players will have the opportunity to play against some of the best competition for their respective age group.

As a program, our priorities include player development, as well as college exposure as the players start and continue their high school careers. From the start to the end of the recruiting process, our staff is there to help guide our players through that process to make sure that process goes as smoothly as possible. Our goal is to best prepare our players for what is to come, which for many players in our program, is college and professional baseball.

Our staff takes pride in providing our players with the best possible quality of instruction, and take a very individualized approach to coaching each player in our program to help them be the best they can be.
